

installation, operation & food storage instructions

Tall Larder Fridge

LXD 6155 S

Please read this manual first!

Dear Customer,

We hope that your product, which has been produced in a 1st-class manufacturing facility and checked under the most meticulous quality control procedures, will provide you with years of good service.

For this, we recommend you to carefully read the entire manual of your product before using it and keep it at hand for future reference.

This manual

- Will help you use your appliance quickly and safely.
- Read the manual before installing and operating your product.
- Follow the instructions, especially those for safety.
- Keep the manual in an easily accessible place as you may need it later.
- Besides, read also the other documents provided with your product.

Please note that this manual may be valid for other models as well.

Symbols and their descriptions

This instruction manual contains the following symbols:

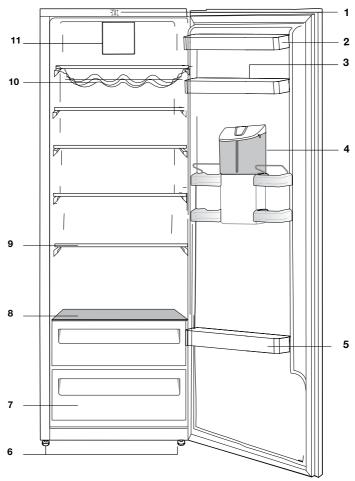

- 1 Important information or useful usage tips.
- ⚠ Warning against dangerous conditions for life and property.
- ⚠ Warning against electric voltage.

1 Your refrigerator

Congratulations on your choice of a **BEKO** quality Appliance which has been designed to give you service for many years.

- 1. Temperature adjustment
- 2. Adjustable door shelves
- 3. Egg tray
- 4. Water Dispenser
- 5. Bottle shelves
- 6. Adjustable front feet

- 7. Crisper
- 8. Chiller with glass cover
- 9. Movable shelves
- 10. Wine rack
- **11.** Fan
- Figures that take place in this instruction manual are schematic and may not correspond exactly with your product. If the subject parts are not included in the product you have purchased, then it is valid for other models.

2 Warnings

- Do not connect your appliance to the electricity supply until all packing and transit protectors have been removed.
- If transported horizontally leave to stand upright for at least 4 hours before switching on to allow compressor oil to settle
- If you are discarding an old refrigerator with a lock or latch fitted to the door, disable the lock/latch, ensure that it is left in a safe condition to prevent the entrapment of young children.
- This appliance must only be used for its intended purpose i.e the storing and freezing of edible foodstuff.
- Do not dispose of the appliance on a fire. At **BEKO**, the care and protection of our environment is an ongoing commitment. This appliance which is among the latest range introduced is particularly environment friendly. Your appliance contains non CFC / HFC natural substances in the cooling system (Called R600a) and in the insulation (Called cyclopentane) which are potentially flammable if exposed to fire. Therefore, take care not to damage, the cooling circuit / pipes of the appliance in transportation and in use. In case of damage do not expose the appliance to fire or potential ignition source and immediately ventilate the room where the appliance is situated.
- We suggest you contact your local authority for disposal information and facilities available.

- See Installation Instructions on page 8 for information on suitable location.
- To obtain the best possible performance and trouble free operation from your appliance it is very important to carefully read these instructions.
- On delivery, check to make sure that the product is not damaged and that all the parts and accessories are in perfect condition.
- Ensure that the plug remains readily accessible. Do not use multiple adapter or extension cable.
- Failure to observe these instructions may invalidate your right to free service during the guarantee period.
- Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction.
- Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- Do not damage the refrigerant circuit.
- Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.
- We suggest you keep these instructions in a safe place for easy reference.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of

the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

 Children should be supervised to ensure that they do not play with the appliance.

Electrical requirements

Before you insert the plug into the wall socket make sure that the voltage and the frequency shown on the rating plate inside the appliance corresponds to your electricity supply.

Rating label is on the left hand side of fridge inner liner.

We recommend that this appliance be connected to the mains supply via a suitable switched and fused socket. The appliance must be positioned so that the plug is accessible.

Should the mains lead of the appliance become damaged or should it need Replacing at any time, it must be replaced by a special purpose made mains lead which can only be obtained from a **BEKO** authorised service agent.

Warning! This appliance must be earthed

If the fitted moulded plug is not suitable for your socket, then the plug should be cut off and an appropriate plug fitted. Destroy the old plug which is cut off as a plug with bared cord could cause a shock hazard if inserted into a socket elsewhere in the house. The moulded plug on this appliance incorporates a 13 A fuse. Should the fuse need to be replaced an

ASTABEAB approved BS 1362 fuse of the same rating must be used. Do

not forget to refit the fuse cover. In the event of losing the fuse cover the plug must not be used until a replacement fuse cover has been fitted.

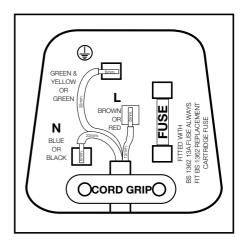

Colour of the replacement fuse cover must be the same colour as that visible on the pin face of the plug. Fuse covers are available from any good electrical store.

Important! Fitting A Different Plug

As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug proceed as follows: (See diagram).

- Connect the green-yellow or green (Earth) wire to the terminal in the plug marked 'E' or with the symbol

 or coloured green and yellow or green.
- Connect the blue (Neutral) wire to the terminal in the plug marked 'N' or coloured black.
- **3.** Connect the brown (Live) wire to the terminal in the plug marked 'L' or coloured red.

With alternative plugs a 13 A fuse must be fitted either in the plug or adaptor or in the main fuse box. If in doubt contact a qualified electrician.

Energy saving tips

- 1. Ensure your appliance is installed in a well ventilated area.
- 2. Ensure the time between buying chilled/frozen food and placing them in your appliance is kept at minimum, particularly in summer. We recommend you use a cool bag or a special carrier bag to carry perishable food.
- 3. Do not leave the door (s) of your appliance open longer than necessary and ensure they are closed properly after each opening.
- 4. Defrost frozen food in the fridge compartment, so that frozen food acts as an ice pack to assist cooling in the fridge.
- **5.** Energy consumption of this appliance is measured while freezer compartment is loaded without use of top shelf lid and the drawers except the bottom drawer. It is advised that any freezer compartment is loaded without use of drawers except the bottom drawer in order to achieve maximum loading capacity.

Compliance with WEEE Directive and Disposing of the Waste Product:

This product complies with EU WEEE

Directive (2012/19/EU). This product bears a classification symbol for waste electrical and electronic equipment (WEEE). This product has been manufactured with

high quality parts and materials which can be reused and are suitable for recycling. Do not dispose of the waste product with normal domestic and other wastes at the end of its service life. Take it to the collection center for the recycling of electrical and electronic equipment. Please consult your local authorities to learn about these collection centers.

Compliance with rohs directive:

The product you have purchased complies with EU RoHS Directive (2011/65/EU). It does not contain hleverful and prohibited materials specified in the Directive.

Package information

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

3 Installation

Transportation Instructions

- 1. The appliance should be transported only in a vertical upright position. The packing as supplied must be intact during transportation.
- 2. If during the course of transport the appliance has to be transported horizontally, the product must only be laid on its right hand side (when facing the door front) and it must not be operated for at least 4 hours to allow the system to settle after the appliance is brought back to upright position.
- **3.** Failure to comply with the instructions could result in damage occurring to the appliance. The manufacturer will not be held responsible if these instructions are disregarded.
- 4. The appliance must be protected against rain, moisture and other atmospheric influences.
- 5. When positioning your appliance take care not to damage your flooring, pipes, wall coverings etc. Do not move the appliance by pulling by the door or handle.
- **6.** Empty any water in the drain tray and Water Dispenser tank before moving. See section 'Defrosting' and 'Care & cleaning' for further information.
- 7. Make sure that the defrost water pipe at the back of the product is fixed to the plastic evaporating pan on the top of the compressor, to avoid defrost water spillage on the floor.

Important Care must be taken when carrying the appliance to avoid touching the bottom of the condenser metal support/pipework at the back of the appliance as you might injure your fingers and hands or damage your product.

Important:

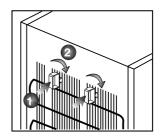

Make sure that mains cable is not caught under the appliance during and after carrying/moving the appliance, to avoid the mains cable becoming cut or damaged.

Do not attempt to sit or stand on top of your appliance. You could injure yourself and damage the appliance.

BEKO declines to accept any liability should the instructions not be followed.

Installation Instructions

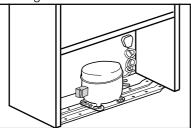

1. Fit the two plastic wall spacers supplied with the appliance onto the condenser at the back of the appliance by rotating 1/4 turn.

- 2. Locate the appliance on a smooth surface.
- **3.** To ensure it is standing upright adjust the two front feet by turning clockwise or anti-clockwise, until it is in firm contact with the floor. Correct adjustment of feet avoids excessive vibration and noise.

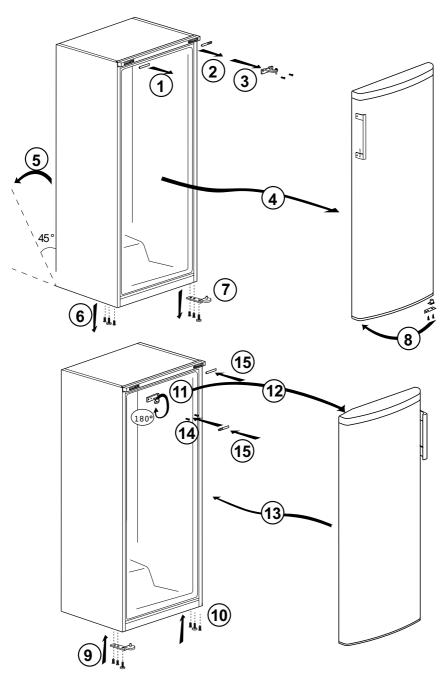

4. A special receptacle is supplied to store the mains plug during transit. The receptacle is fixed at the back of the cabinet on the side of the compressor. Gently remove the plug from the receptacle. Never pull the mains cord, you may damage the appliance. In case of transportation, ensure you locate the plug in the receptacle provided to avoid transit damage.

5. The space in the room where the appliance is installed must not be smaller than 10 cubic metres.

Changing the illumination lamp

To change the LED used for illumination of your refrigerator, call your Authorised Service.

10 | EN

Reversing The Doors

We recommend that you reverse the door before switching on for the first time.

Tools required: Small and medium size flat and cross-headed screwdrivers, a pair of pliers.

Spare Parts supplied in the plastic bag: The following parts, which are exclusively for left hand side fitted hinge operation are supplied in a plastic bag with the appliance:

- Door top trim hinge covers – there are 2 different parts, one for each side of top trim.

We suggest you keep all the parts supplied in the plastic bag and also parts, which have been removed when reversing the door, in a safe place for possible future, re-use.

Important:

We suggest you ask somebody to help you when moving the appliance around and to hold the door when removing / re-fitting hinges and the door to avoid any injury and damage to the product.

Please refer to diagrams supplied. To follow numbers in brackets below, refer to the main diagram.

- Switch off the appliance at the socket outlet and pull out the mains plug.
- 2. Remove all loose items and fittings and food inside the appliance.

- **3.** Gently prise off plastic hinge covers on both sides of front top panel using a small flat-headed screwdriver. (1-2)
- **4.** Unscrew the bolts of the top hinge and remove top hinge. (3)
- **5.** Remove door carefully off the bottom hinge and stand door upright in a safe place.(4)
- **6.** Gently prise off plastic hinge cover on door top trim. Fit the other door top trim plastic off hinge cover supplied in the plastic bag.(5)
- 7. Gently tilt the appliance back against a strong wall on its rear side sufficiently to allow the lower hinge to be removed. Take care to protect the appliance, your wall and floor coverings. You can utilise the original packaging to do this. Once you tilt the appliance back, check to make sure the appliance is completely stable and safe before you carry on. (6)
- **8.** Unscrew and remove the front feet and 1 bolt. (7)
- **9.** Unscrew and remove the bottom hinge. (8)
- 10. Unscrew and remove the bottom hinge door stopper and bushing and reposition them on the other side while rotating the bushing 180°. (9)
- **11.** Fit the bottom hinge and tighten the screws as shown in figure. (10)
- **12.** Fit the other front feet as shown in figure. (11)
- **13.** Rotate the top hinge 180°. Unscrew the hinge pin and re-tighten it to the opposite side. (12)
- **14.** Fit the top hinge on the left hand side bushing of the door. (13)
- **15.** Locate and re-fit door to bottom hinge pin. (14)
- **16.** Re-fit the upper hinge on the opposite side by using a flat headed screwdriver. (15)

- Fit front top panel plastic hinge covers on the opposite sides. (16)
- **18.** Remove the handle cover gently taking care not to damage the appliance.(17)
- 19. Unscrew and remove the handle (18). Do not unscrew the yellow coloured screws!
- **20.** Rotate 180 degrees and fit handle to the other side after removing hole plugs gently.(19,20)
- **21.** Fit the handle cover.(21)
- 22. Adjust the two front feet if necessary.
- 23. Check that door opens and closes easily, it is aligned correctly and there are no gaps allowing air into the cabinet. If there are gaps between the door seal and the cabinet, adjust the door seal by gently pulling away from the door using fingers.
- **24.** Check that all the hinge screws are tightened. Avoid over tightening the screws.
- **25.** Put all items, fittings back in the appliance.
- **26.** Wait for at least 4 hours to allow the system to settle before switching on.
- **27.** Once the correct storage temperatures have been reached in the appliance, put back all the food.

4 Before operating

Starting

Final Check

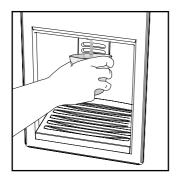

Before you start using the refrigerator check that:

- **1.** The front feet have been adjusted so the appliance is level.
- 2. The interior is dry and air can circulate freely around the outside of the product.
- 3. Clean the interior as recommended under "CLEANING AND CARE."
- 4. Insert the plug into the wall socket and switch on the electricity supply. When the door is open the interior light will come on.
- 5. You will hear a noise as the compressor starts up. The liquid and gases sealed within the refrigeration system may also give rise to noise, whether the compressor is running or not which is quite normal.
- **6.** We recommend that you set the thermostat thermostat to 3 (three) and monitor the temperature to ensure the appliance maintains desired storage temperatures (See section Temperature Control and Adjustment).
- Do not load the appliance immediately it is switched on. Wait until the correct storage temperature has been reached.
- **8.** We recommend that you check the temperature with an accurate thermometer

Water Dispenser

*optional

The water dispenser is a very useful feature allowing cold water on tap without opening the door of your refrigerator .As you will not have to open your refrigerator door frequently, you will have saved energy.

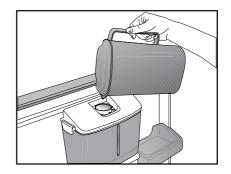

Using the water dispenser

Push the lever of the water dispenser with your glass. The dispenser will cease operating once you release the lever.

When operating the water dispenser, maximum flow can be obtained by pressing the lever fully. Please remember that the amount of flow from the dispenser is subject to the degree you press the lever.

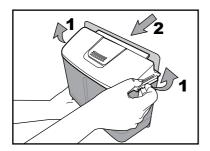

As the level of the water in your glass/container rises, slightly lessen the pressure on the lever to prevent the overspill. If you slightly press the lever, the water will drip; this is quite normal and not a failure.

Filling the water dispenser's tank
Open the cover of the water tank as
shown in the figure. Fill in the pure and
clean drinking water. Close the cover.
To avoid flowing of water by mistake,
we recommend you to lock the water
dispenser.

Warning!

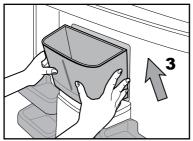

- Do not fill the water tank with any other liquid except for water such as fruit juices, carbonated beverages or alcoholic drinks which are not suitable to use in the water dispenser. Water dispenser will be irreparably damaged if these kinds of liquids are used. Warranty does not cover such usages. Some chemical substances and additives contained in these kinds of drinks/liquids may damage the water tank.
- Use clean and pure drinking water only.
- Capacity of the water tank is 2.2 Litres (3.8 pints); do not overfill.

 Push the lever of the water dispenser with a rigid glass. If you are using disposable plastic glasses, push the lever with your fingers from behind the glass.

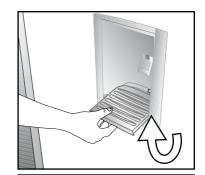

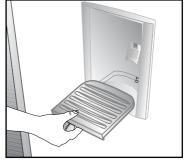

Cleaning the water tank

Release the tank cover from the water tank by opening latches at both sides. Remove the water tank and clean with warm and clean water. Place the water tank to its seating, install the tank cover and close the latches.

Make sure that the parts removed (if any) during cleaning are properly attached to their original places.
Otherwise, water leakage may occur.

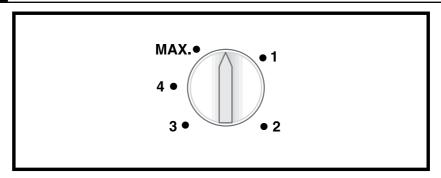

Important:

Components of the water tank and water dispenser should not be washed in a dishwasher.

Water tray

Water that dripped while using the water dispenser accumulates in the spillage tray. Take out the strainer by pulling it towards yourself and clear up the water in the tray regularly.

5 Using your refrigerator

Thermostat control

The thermostat control is located on the top trim of the cooler.

Important:

When you adjust the set temperature, there may be a short delay before the compressor starts to operate. This is normal and not a compressor fault.

Using interior compartments

Body shelves: Distance between the shelves can be adjusted when necessary.

Crisper: Vegetables and fruits can be stored in this compartment for long periods without decaying.

Bottle shelf: Bottles, jars and tins can be placed in these shelves.

Chiller Compartment:

is ideal for storage of wrapped fresh fish, meat and easily perishable food like cooked chilled food.

Stopping your product

If your thermostat is equipped with "0" position:

- Your product will stop operating when you turn the thermostat button to "0" (zero) position. Your product will not start unless to you turn the thermostat button to position "1" or one of the other positions again. If your thermostat is equipped with "min" position:

- Unplug your product to stop it.

Cooling

Food storage

The fridge compartment is for the short-term storage of fresh food and drinks

Store milk products in the intended compartment in the cooler

Bottles can be stored in the bottle holder or in the bottle shelf of the door. Raw meat is best kept in a polyethylene bag in the compartment at the very bottom of the cooler.

Allow hot foods and beverages to cool to room temperature prior to placing them in the cooler.

Attention

Store alcoholic spirits standing upright and tightly closed.

Attention

Do not store explosive substances or containers with flammable propellant gases (spray cans etc.) in the device. There is a danger of explosion.

Placing the food

Egg tray	Eggs
Fridge compartment shelves	Food in pans, covered plates and closed containers
Fridge compartment door shelves	Small and packaged food or drinks (such as milk, fruit juice and beer)
Crisper	Vegetables and fruits
Chiller Compartment	Wrapped fresh fish, meat and easily perishable food

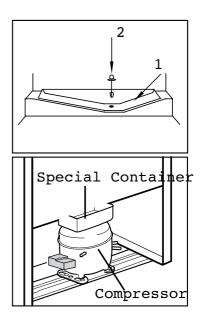

Defrosting of the appliance

The appliance defrosts automatically.

6 Maintenance and cleaning

- We recommend that you switch off the appliance at the socket outlet and pull out the mains plug before cleaning.
- Never use any sharp abrasive instrument, soap, household cleaner, detergent and wax polish for cleaning.
- Use luke warm water to clean the cabinet of the appliance and wipe it dry.
- Use a damp cloth wrung out in a solution of one teaspoon of bicarbonate of soda to one pint of water to clean the interior and wipe it dry.
- Make sure that no water enters the temperature control box.
- If the larder refrigerator is not going to be used for a long period of time switch it off, remove all food, clean it and leave the door ajar.
- Any dust that gathers on the condenser, which is located at the back of the appliance, should be removed once a year with a vacuum cleaner.
- Check door seals regularly to ensure they are clean and free from food particles.
- Removal of door rack :
- To remove a door rack, remove all the contents and then simply push the door tray upwards from the base.
- Make sure that the special plastic container (drain tray) at the back of the appliance which collects defrost water is clean at all times. If you want to remove the tray to clean it follow the instructions below:

- Switch off at the socket outlet and pull out the mains plug.
- Push the lug down with the tip of a screw driver & pull out firmly.
- Clean the drain tray and wipe it dry.
- Reassemble reversing the sequence and operations.
 Super Fresh Zone:
- Pull it out as far as possible and then lift up and remove it completely.

7 Do's and Don'ts

Do- Clean your larder refrigerator regularly.

Do- Keep raw meat and poultry below cooked food and dairy products and ideally in the super fresh zone.

Do- Keep food for as short a time as possible and adhere to 'Best Before' and "Use By" dates.

Do- Take off any unusable leaves on vegetables and wipe off any soil.

Do- Leave lettuce, cabbage, parsley and cauliflower on the stem.

Do- Wrap cheese firstly in greaseproof paper and then in a polythene bag excluding as much air as possible.

Do- Wrap meat, fish and offal in polythene bags.

Do- Wrap bread well to keep it fresh..

Do- Chill white wines, beer, lager and mineral water before serving.

Do- Put Melon in your fridge. It can be chilled for short periods as long as it is wrapped to avoid it flavouring other food.

Don't - Leave door open for long periods as this will make the larder refrigerator more costly to run.

Don't- Keep poisonous or any dangerous substances in the larder refrigerator. Your larder refrigerator has been designed for the storage of edible foodstuffs only.

Don't- Consume food which has been stored for an excessive time in the larder refrigerator.

Don't- Store cooked and fresh food

together in the same container. They should be packaged and stored separately..

Don't- Let defrosting food or food juices drip onto food in your larder refrigerator.

Problem Solving

If the appliance does not operate when switched on, check whether:

- The plug is inserted properly in the socket and that the power supply is on. (To check the power supply to the socket, plug in another appliance)
- The fuse has blown/circuit breaker has tripped/main distribution switch has been turned off.
- The temperature control has been set correctly.
- New plug is wired correctly if you have changed the fitted moulded plug.

If the appliance is still not operating after the above checks, please refer to the section on "How To Obtain Service".

Please ensure that above checks have been made as a charge will be made if no fault is found.

HOW TO OBTAIN SERVICE

Please keep your purchase receipt or other proof of purchase in a safe place; you will need to have it should the product require attention under guarantee.

You should also complete the details below; it will help us assist you when requesting service. (The model number is printed on the Instruction Booklet and the serial number is printed on the Rating Label affixed to the appliance)

Model No: Serial No: Retailer: Date of purchase:

For service under guarantee simply telephone the appropriate number below

UK Mainland & Northern Ireland

Before requesting service please check the trouble-shooting guide in the Operating Instructions as a charge may be levied where no fault is found even though your product may still be under guarantee.

Service once the manufacturers guarantee has expired.

If you have purchased an extended guarantee please refer to the instructions contained within the extended guarantee agreement document. Otherwise please call the appropriate number above where service can be obtained at a charge.

Should you experience any difficulty in obtaining service please contact the Beko Customer Help-Line. Tel: 0845 6004911 e-mail: service@beko.co.uk

GUARANTEE DETAILS

Your new Beko product is guaranteed against the cost of breakdown repair for twelve months from the date of the original purchase.

What is covered?

- Repairs necessary as a result of faulty materials, defective components or manufacturing defect.
- The cost of functional replacement parts, but excluding consumable items.
- The labour costs of a Beko approved repairer to carry out the repair.

What is not covered?

- Transit, delivery or accidental damage or misuse and abuse.
- Cabinet or appearance parts, including control knobs, flaps, handles or container lids.
- Accessories or consumable items including but not limited to, ice trays, scrapers, cutlery baskets, filters and light bulbs.
- Repairs required as a result of unauthorised repair or inexpert installation that fails to meet the requirements contained in the user instruction book.
- Repairs to products used on commercial or non-residential household premises.
- Loss of frozen food in freezers or fridge/freezers. (Food loss insurance is often included within your household contents insurance policy, or may be available separately from your retailer).

Important notes.

- Your Beko product is designed and built for domestic household use only.
- The guarantee will be void if the product is installed or used in commercial or non-residential domestic household premises.
- The product must be correctly installed, located and operated in accordance with the instructions contained in the User Instructions Booklet provided.
- Professional installation by a qualified Electrical Domestic Appliance Installer is recommended for all Washing Machines, Dishwashers and Electric Cookers
- Gas Cookers must only be installed by a Gas Safe (or BORD GAIS) registered Gas Installer.
- The guarantee is given only within the boundaries of the United Kingdom and the Republic of Ireland.
- The guarantee is applicable only to new products and is not transferable if the product is resold.
- Beko disclaims any liability for incidental or consequential damages.
 The guarantee does not in anyway diminish your statutory or legal rights.
